

Forms by Packet Now Available

On August 31, 2006 OREF released another enhancement to the Online Forms program to provide users a shortcut to recalling which forms they will probably need on a transaction. When you are in Online Forms and ready to select which forms to complete:

You can select forms from the entire list of forms or you can go directly to a packet list of forms that are the usual forms used for residential sales transactions.

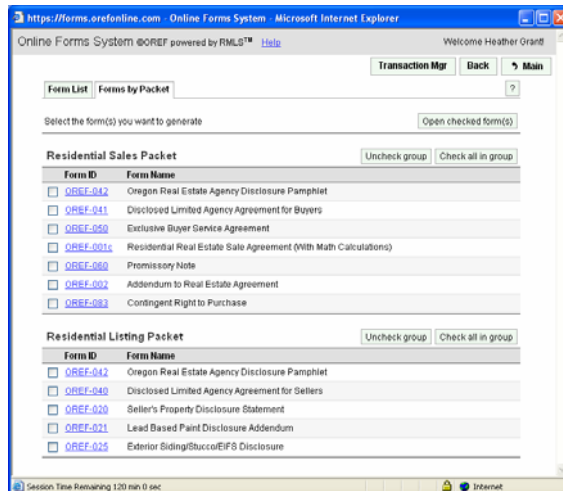

There are two packet options:

Residential Sales Packet

or

Residential Listing Packet
